

Smart Management Support

## Silver Membership Features and Benefits

AIMED AT PBC >

Silver Membership is tailor-made to serve clusters of medical practices to undertake practice-based commissioning.

STARTER PACKAGE >

In a PBC starter package we will draw up a plan to which all subscribe, plan and run six half-day workshops on commissioning issues and 12 sessions of managers' learning set, issue a monthly newsletter, provide an exclusive members' area on our website with library of documents, give access to our self-help toolkits, undertake data analysis, support business case development and write reports to the PCT to monitor the plan.

CONTINUING PACKAGE >

Typically the starter pack is good to get a cluster off to a flying start for the first 12 months. It culminates in the production of a strategic plan for the next 5 years. At this stage the cluster will be in a position to purchase the support it specifically needs in the future via our Gold Membership or to continue with Silver Membership based on the strategy and action plan.

NO FORMAL LINKS NECESSARY >

Clusters do not need to have a formal arrangement between practices to take part in our scheme. In fact, it is designed so that practices can work independently on common plans. If clusters later want to explore more formal arrangements we have the expertise to support the cluster to explore that avenue.

PRICING >

The annual cost of our starter package is 30p per registered patient payable monthly by standing order. Depending upon distance there may be some additional travel costs.
